PRODUCT PROFILE

Moisture Trap & Regulator Kit

Ideal for dust collection applications requiring clean, dry compressed air*

The Donaldson Moisture Trap & Regulator Kit includes all the parts required to supply, regulate and monitor clean, dry compressed air from an existing static or flexible feed line to a dust collector manifold.

The kit is easy to mount and install, either in-line or directly to a board, and the inclusion of the DF Filter ensures high performance, efficiency, ease of use, flexibility and safety.

* Please consult your Donaldson representative to determine if this kit is the best solution for your specific application.

FEATURES & BENEFITS:

- ✓ Ensures longer dust collector filter life
- ✓ Reduces compressed air consumption
- ✓ Protects dust collector from unnecessary wear and tear
- ✓ High filtration efficiency at low differential pressure
- ✓ Simple replacement of filter element
- ✓ Easy to mount and install

Kit part number
11754-400
